

# CONTINUOUS MASTER INTEGRATION

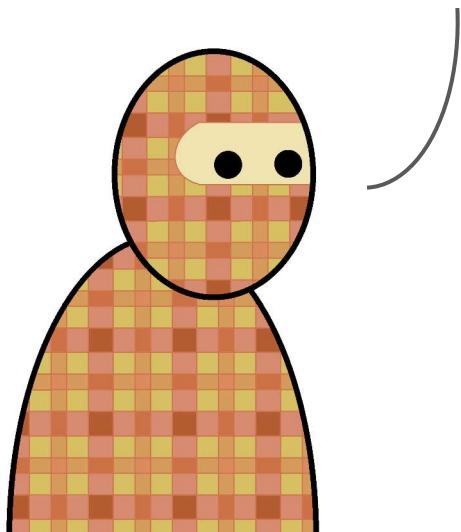

ILLUSTRATED STEP-BY-STEP GUIDE

# Bug feedback loops

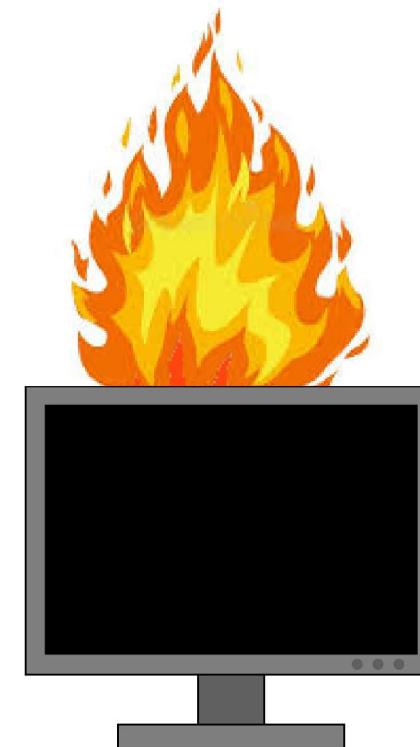

*When an error report doth arise upon the master branch, let not your hearts be troubled, for such trials are but a test of your diligence and skill.*

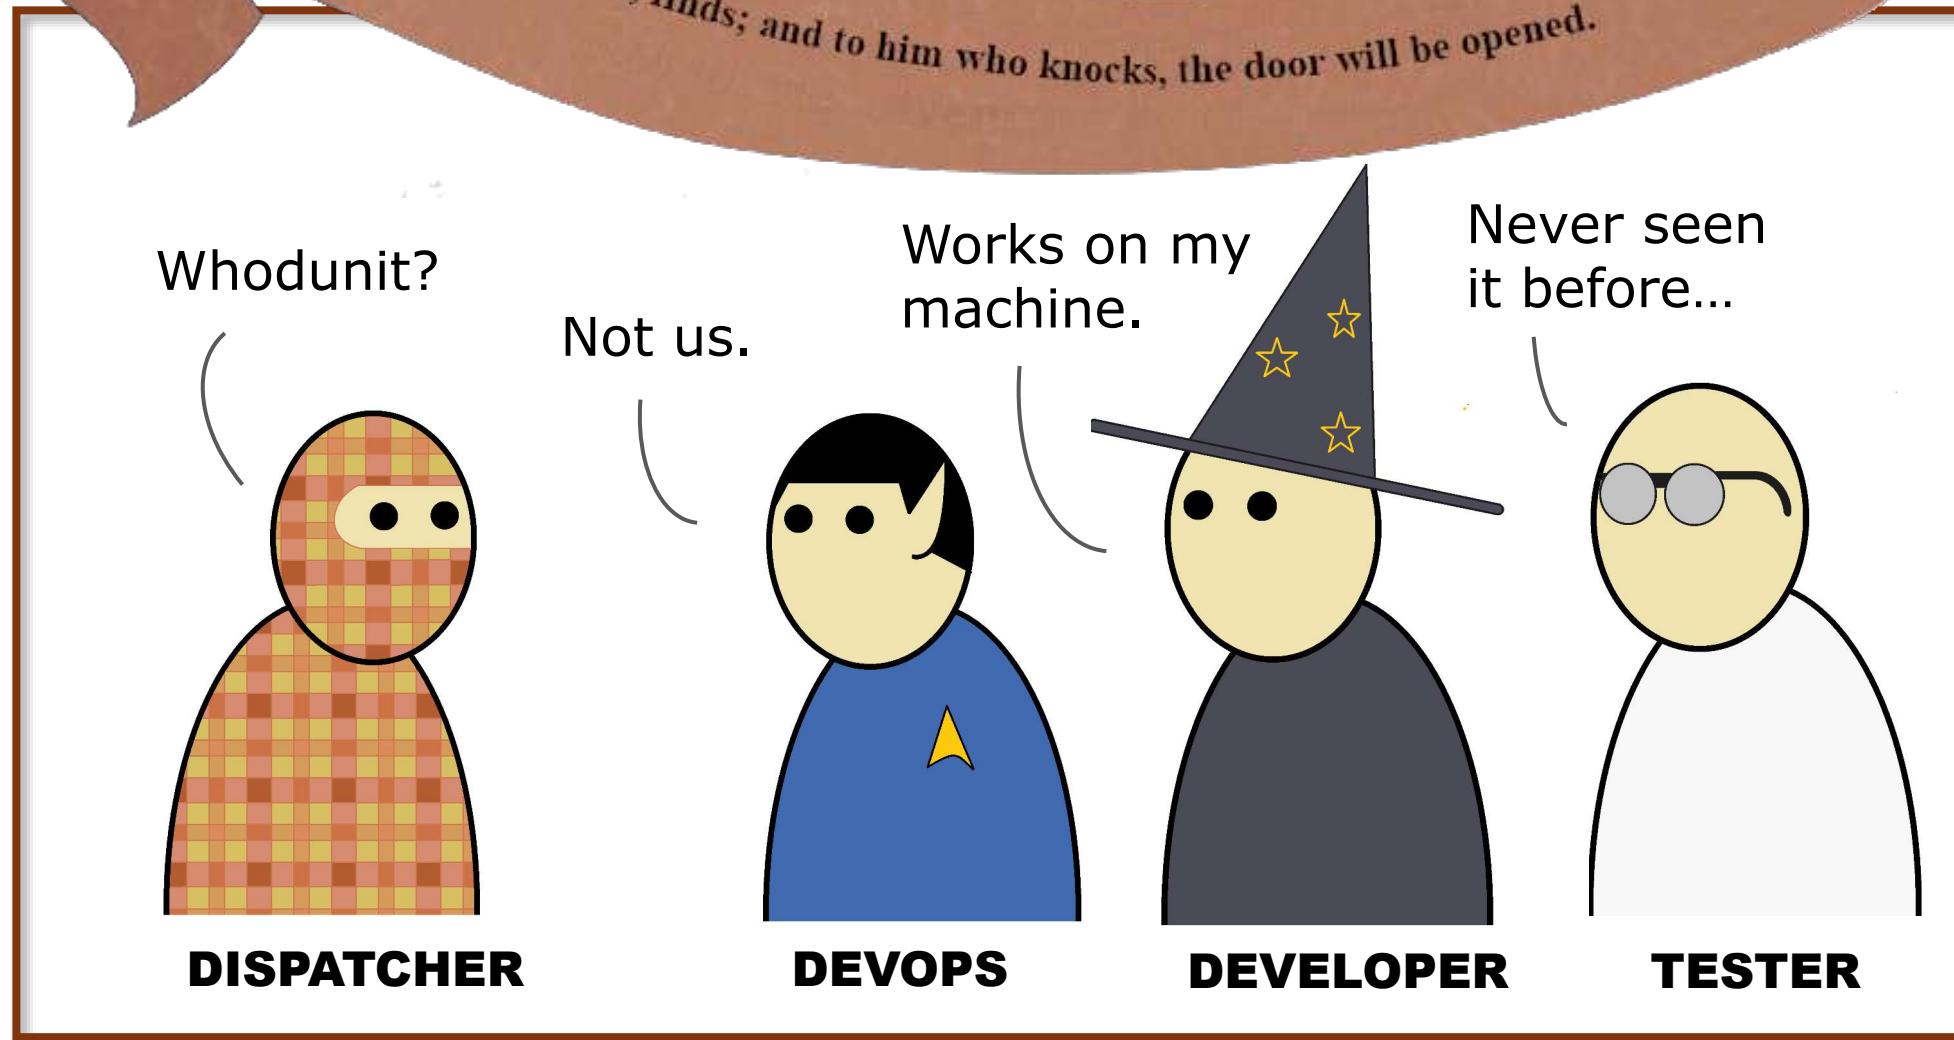

Aaaaaaaaarrrrrgh!!!  
An error!

**DISPATCHER**

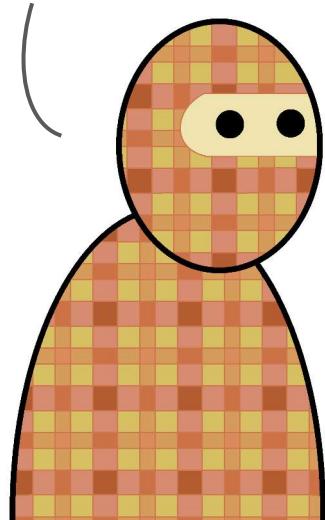

*He who seeks, finds; and to him who knocks, the door will be opened.*

*Thy bug report shall fulfill the Definition of Ready.  
For knowledge shared is a light unto the path of those who follow..*

This is going  
in Jira

## Definition of Ready

### Bug fixing

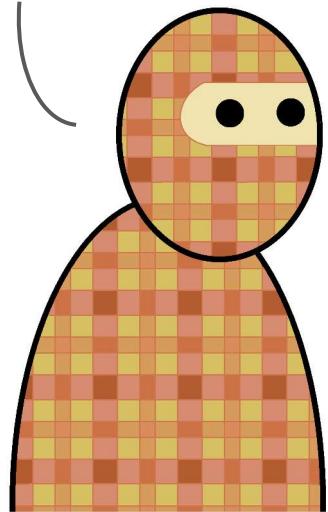

The bug creator is accountable for making sure DOR is fulfilled as per the bug template.

- **Bug described**

- In accordance with bug [template](#)
- Severity addressed, steps to reproduce described, expected behavior described etc.

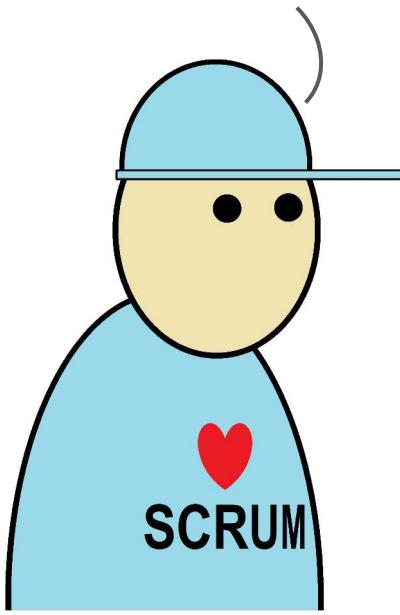

*And lo, the Monitoring Group shall convene and ponder upon the severity of the bug.  
It shall be entrusted unto a team that they may toil to rectify it.*

Severe.  
No workaround

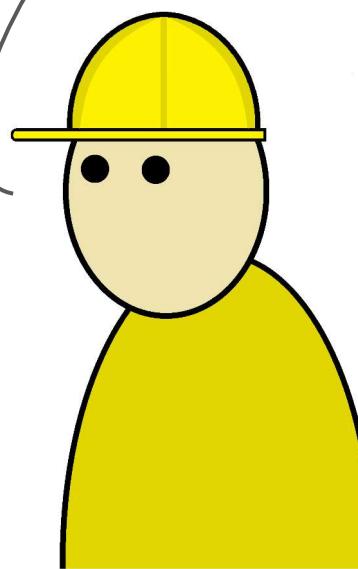

**DISPATCHER**

Which team?

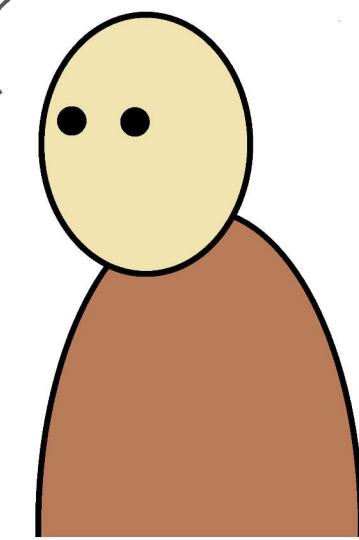

**SCRUM MASTER**

It needs refactoring.

**ARCHITECT**

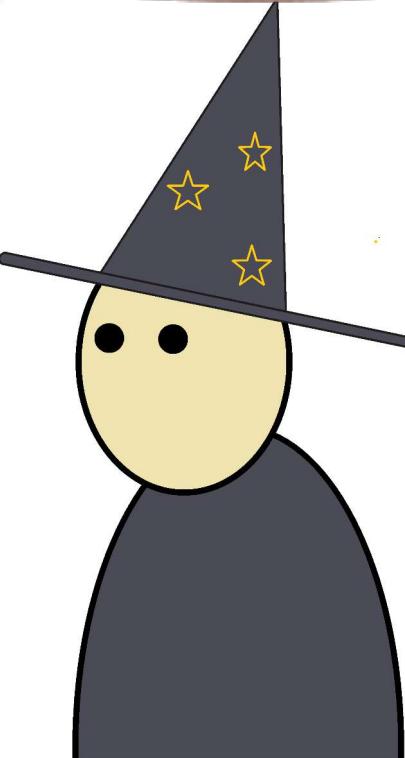

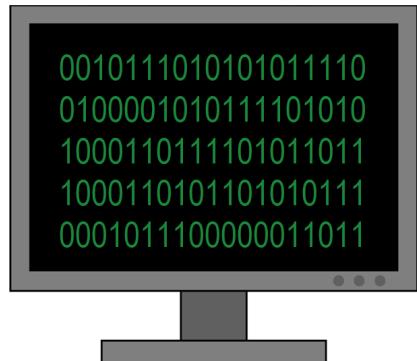

Prioritize.

**ENGINEER**

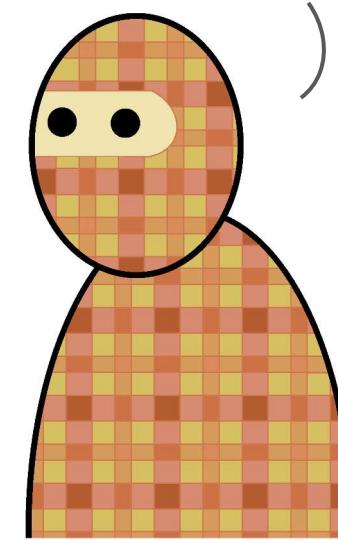

*Gather ye the counsel of thy peers.  
Discuss and deliberate, that wisdom may prevail.*

These latest changes  
look suspicious.

**DEVELOPER**

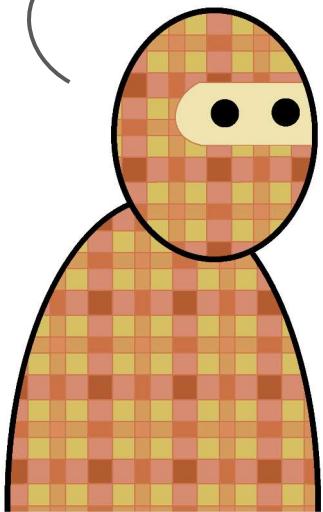

Maybe a race  
condition?

**DISPATCHER**

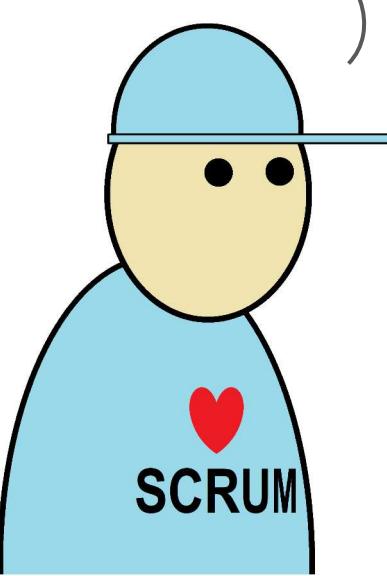

*It shall come to pass that the Monitoring Group, entrusted with wisdom and authority,  
shall hold dominion over the error backlog.*

Jira 666 caused  
the bug.

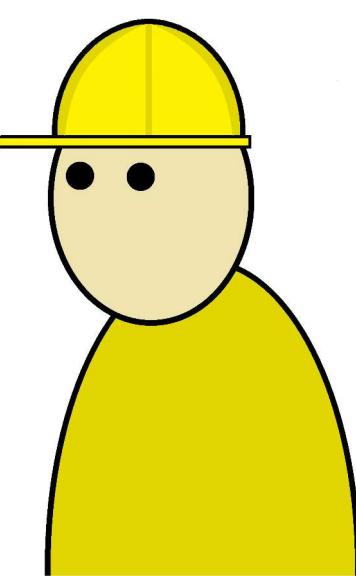

**DISPATCHER**

Use that WBS.

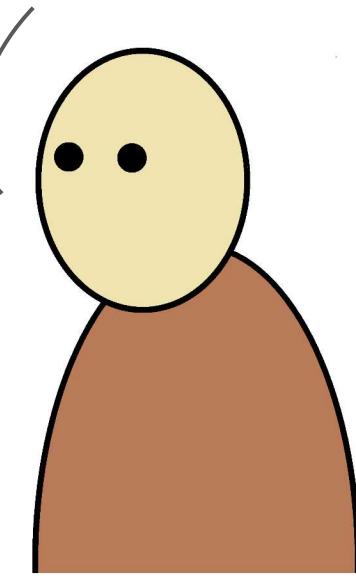

**SCRUM MASTER**

Coordinate with  
the other team.

**ARCHITECT**

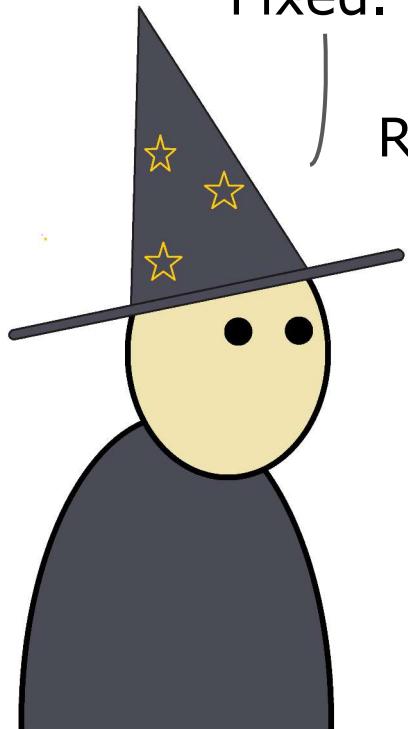

We are  
watching.

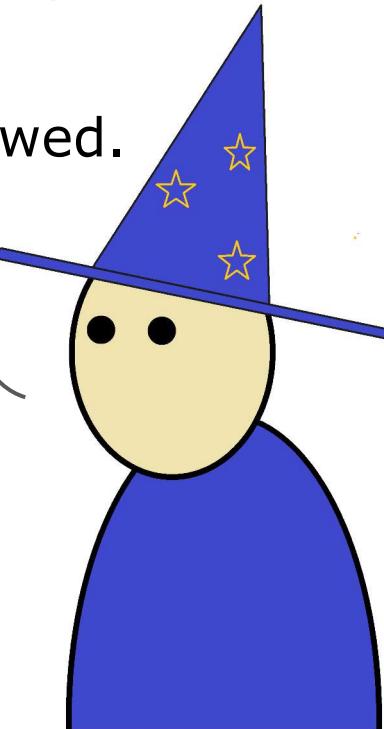

**ENGINEER**

*Once the error is vanquished, test thy solution thoroughly.  
Let not haste lead thee into folly.*

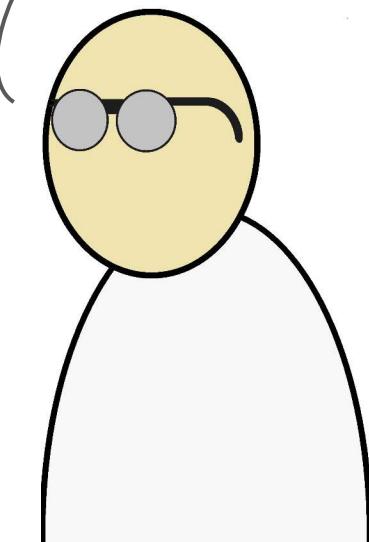

Fixed.

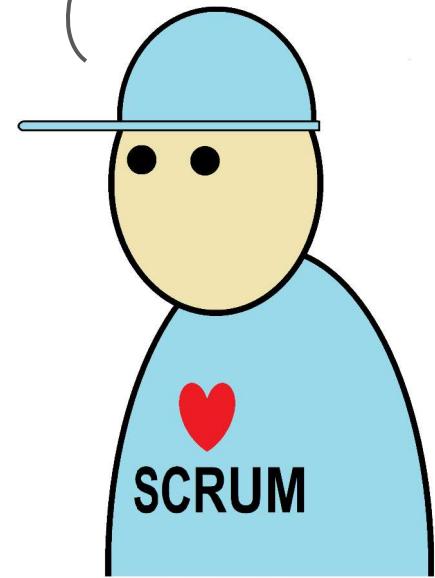

Reviewed.

Verified.

Yay!

**DEVELOPER**

**DEVELOPER**

**TESTER**

**SCRUM MASTER**
